Re: Barent Fork -
Birch Creek

Dear Sir:

We the Commiteemen held a meeting at McKinnon, Wyo. March 21, 1959, to review applications for water commissioner.

We had no applications except the names of Louis Stoll, and Wendell Triplett, which were suggested at the Manila meeting. *not acceptable to Wyo*

not available → We were also advised that James Briggs had already submitted his application to Utah and Wyoming for the water commissioner job. Wea are not opposed to any of the three applicants, so will leave it up to you to choose the one you think most suitable for the job.

Yours truly,

Claude Sadlier
